Welcome to  
**LUXCON 2026**  
**IMAGINING TOMORROW, TOGETHER**

As LuxCon opens its doors once again, we step into another chapter of our shared story — one written by every fan, artist, gamer, and dreamer who believes that imagination can shape the world around us. For over a decade, LuxCon has been a home for those who dare to ask what if and what next, bringing the worlds of science fiction, fantasy, and horror to life with their passion, talent, and creativity.

At a moment in time when technology evolves faster than ever and reality sometimes feels as strange as the stories we love, the speculative becomes more relevant than ever. The genres we celebrate offer not only escape, but empathy — blueprints for new possibilities, mirrors for our society, and reminders that creativity is humanity's most powerful force.

LuxCon remains a celebration of that creative spirit. Here, artists and writers meet fans, friendships spark over games and panels, and every conversation adds another thread to our shared multiverse of ideas.

Whether this is your first visit or your eleventh, you are part of something larger — a living community that grows with every story told, every moment experienced and every fan who joins in.

None of this would be possible without the passion and generosity of our volunteers, partners, and supporters. They give their time, energy, and imagination to make this convention a reality year after year. To all of you, and to every visitor who fills our halls with laughter, curiosity, and wonder — thank you. LuxCon exists because of you.

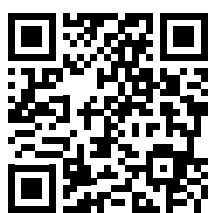

As we look toward the future, may LuxCon continue to be a place where ideas collide, worlds expand, and possibilities multiply. Enjoy LuxCon 2026 — let's keep imagining a better tomorrow, together.

**LET'S BRING WORLDCON TO NUREMBERG**

Nuremberg2028 presents their bid to bring World-Con to the Bavarian city in 2028. WorldCon is an annual literary convention celebrating SFF which has existed since 1939 and is being hosted in a different city every year.

Diese Serie entspricht so gar nicht dem Bild von Batman, wie man ihn sonst kennt. Robert Vogel ist ein ganz großer Fan der herrlich bescheuerten Serie, die zum zeitlosen Kult wurde und erzählt in seinem Vortrag Bat-Facts und Bat-Anekdoten über die Serie und wie sie die Pop-Kultur der 60er Jahre geprägt und beeinflusst hat.
